Pryor's Price List

STRAWBERRY PLANTS

ASPARAGUS ROOTS

I Thank You All

Again for the business you gave me last year making it my banner year. I received more orders than ever before and I sincerely appreciate every order sent me. It is a pleasure to receive your orders and my constant aim is to fill them, whether large or small, with the highest quality plants and to give the best of service—a full dollar in value for every dollar received.

I am this year just sending out this price list and will issue no catalogue this year, nor will I advertise as extensively as last year. There is reported a shortage in plants in many sections with a tendency to raise prices, and I am trying to cut down my expenses and keep my prices the same as last year, and have only raised the price of one variety, but have reduced the price on two varieties.

I have discontinued growing a few varieties that were not very good or not the best in their season and growing only the varieties that can be depended on—the ones that make good—both for me and for my customers. There are too many varieties some of which are not worth growing when you can get much better varieties, several others that are so near alike you can hardly tell the difference and is often confusing, especially to beginners. By offering fewer varieties, the cream of the list in each season, it is much easier to select the variety best suited to your conditions, and this also is in line with my desire to offer my customers only the best. I solicit your patronage again this year for some of these dependable varieties and I assure you, whether you need 100 or 50,000 your order will receive my careful attention. If you have never ordered from me, I invite you to give me at least a trial order, as I guarantee to give you satisfaction or refund your money.

Wishing you all good health, happiness and prosperity, I remain,

Sincerely yours,
M. S. PRYOR.
